State and Federal Aid Eligibility Determination

To provide the best educational opportunities for all children in the district, it is the objective of the Board to seek sources of revenue to supplement funds provided by local taxation and the basic aid offered by the State, provided the additional funds will be used in a manner consistent with the Board's goals and objectives.

Therefore, the Superintendent should:

1. Investigate new sources of revenue consistent with the stated goals and objectives of the Board of Education.
2. Propose new revenue sources and associated programs to the Board of Education for approval.
3. Implement measures necessary to apply for/receive additional revenues.

The Board authorizes the Superintendent or designee to sign all forms for State and Federal programs following the Board's approval of the program or its continuation.

The Superintendent shall report annually, as part of budget preparation, on the status of all State and Federal programs, including the financial status of each program. His/her report shall include recommendations to continue, modify, or discontinue each program.
