

**Insect Repellent Use Parent/Guardian Form**  
**Pomfret Community School**

The Pomfret board of Education allows school students, six years of age or older, to possess and self-apply an over-the-counter insect repellent product while in school prior to engaging in any outdoor activity, provided a written authorization is signed by a student's parent/guardian and is submitted to the school nurse.

The insect repellent product must be non-aerosol and must be EPA registered. The Board of Education adopted policy #5141.215, "Student Insect Repellent Use," pertaining to this new legislation.

---

As a parent/guardian, I attest to the following:

- My child has demonstrated to me that he/she is capable of self-applying the non-aerosol insect repellent product.
- I understand that I am responsible to provide the non-aerosol insect repellent product for school use, clearly marked with my child's name and replenished as needed.
- I understand that the Pomfret Community School is not responsible for ensuring that the insect repellent product is applied by my child.
- I understand that my child is not to share his/her insect repellent product with other students.
- I understand that my child may not apply insect repellent to other students.
- I understand that my child must apply the insect repellent while outside the building.
- I recognize that school personnel are not expected to assist my child in the application of insect repellent.
- I understand that the school may revoke or restrict possession, application, and use of insect repellent by my child if my child fails to comply with school rules related to the insect repellent product or if my child shows an unwillingness or inability to safeguard the non-aerosol insect repellent product from access by other students.
