

Personnel-Certified/Non-Certified

Personnel Records

Personnel record shall be kept on all current employees. There shall be only one personnel file for each employee.

A file shall be kept for all resigned or retired employees, including such essential information as shall seem appropriate to the administration as specified by state and federal laws.

The Superintendent shall notify an employee and a collective bargaining representative, in writing, when a request is made for disclosure of the employee's personnel, medical or similar files, if the Superintendent reasonably believes disclosure would invade the employee's privacy.

The records will be disclosed unless written objection is received from the teacher or employee's collective bargaining representative, within seven business days from the receipt by employee or collective bargaining representative.

Records of a teacher's performance and evaluation shall not be released without the written consent of the teacher.

Records maintained or kept on file by the Board, which are records of a teacher's personal misconduct shall be deemed to be public records, and subject to disclosure under the Freedom of Information Act. Disclosure of such records of a teacher's personal misconduct shall not require the consent of the teacher.

Whenever a request is made for disclosure of an employee's personnel file, the Superintendent may seek legal counsel to protect the employee's individual right, or protect the Board of Education from liability concern. All written materials shall be made available for inspection by the employee and a collective bargaining representative, at a mutually convenient time, in the presence of an administrator. Upon request, an employee will be provided a copy of supervisory records and reports maintained in said employee's personal file as a guide to evaluation of performance.

In accordance with federal law, the District shall release information regarding the professional qualifications and degrees of teachers and the qualifications of paraprofessionals to parents/guardians upon request for any teacher or paraprofessional who is employed by a school receiving Title I funds and who provides instruction to their child at that school.

Files containing medical information regarding an employee will be kept separate from other personnel files.
